

VSP Laser VisionCareSM Program

VSP's Laser VisionCare Program provides members with discounts through VSP-contracted laser centers. Discounts for PRK, LASIK and Custom LASIK¹ average 15% off, or 5% off if the laser center is offering a promotional price. And, because the Laser VisionCare Program is complimentary with most VSP plans, your employees can save hundreds of dollars at no additional cost to you.

Plan Coverage

Complimentary Screening	• Access to VSP's quality network of doctors and contracted laser centers • Complimentary screening with a VSP network doctor to determine if the member is a good candidate for vision correction surgery • Discussion about the benefits, risks and surgery alternatives with the member
Pre-operative Exam ²	• Pre-operative eye exam performed by a VSP network doctor to measure the member's degree of vision correction
Surgery	• Surgery performed by a participating surgeon at a VSP-contracted laser center • The patient pays the facility either the discounted rate or the maximum amount, whichever is less. The maximum amount a member will pay is: - o \$1500 per eye for PRK - o \$1800 per eye for LASIK - o \$2300 per eye for Custom LASIK
Post-operative Exams	• Post-operative exams by a VSP network doctor to ensure the eyes have healed properly
Enhancement Follow-up Surgery ³	• If the member and the doctor agree that it is necessary, an enhancement surgery and follow-up care may be performed at no cost to the member or the group
Member Education Materials	• Educational information available at vsp.com

VSP Laser VisionCareSM Preferred Program

Want to offer your members additional coverage for vision correction surgery? Enter the VSP Laser VisionCare Preferred Program.

With the Laser VisionCare Preferred Program,⁴ you can cover all or a portion of the cost of laser vision correction surgery. Plus, members still receive all the benefits of the VSP Laser VisionCare Program.

We care about your employees' eyes before and after surgery. That's why we encourage all members to continue seeing their VSP doctor each year to maintain overall eye health.

¹ Custom LASIK coverage only available using wavefront technology with the microkeratome surgical device. Other LASIK procedures may be performed at an additional cost to the member.

² The screening is complimentary; however, if the member has a pre-operative exam and does not proceed with the surgery, the VSP network doctor may charge the member a discounted exam fee up to \$100.

³ Each laser center's enhancement surgery policy can vary. No-cost enhancements are typically performed within the first year, but some centers offer commitments as long as the member's lifetime.

⁴ Preferred program is currently available on a self-funded basis for VSP clients with 200 or more VSP members.
